For compensation paid/to be paid to me for my services delivered to the below named inventor, and other good and valuable consideration, I hereby assign, transfer and set-over unto said inventor all rights, title and interest in, and to, any inventions, designs, copyrights, or patentable improvements related to, springing forth from, or arising as a result of such services. I assign to said inventor all rights in any patent applications, both foreign and domestic, further including any patent, continuations, or reissues of any patent that may be granted thereon; and any patent applications which are continuations-in-part, substitutes, or divisions of said applications.

I agree to keep all information related the the work performed for the inventor in confidence. I further agree to execute all papers, give any required testimony and perform other lawful acts that may be required to perfect said inventor's interest in any resulting patent of the United States and countries foreign thereto, and to acquire, hold, enforce, convey, and uphold the validity of said patent and reissues and extensions thereof, and said inventors' interest therein.

I intend to be legally bound by this agreement and agree that it shall be binding as well upon my heirs, executors, administrators, assigns and other legal representatives. If I am signing on behalf of a company, I hereby warrant that I am authorized to sign on behalf of the company and that all pertinent employees have signed employment agreements that operate to convey potential inventions to the company and thereby to the inventor.
